Courses selected

- 07. Logic, automata and games (2015-2016, spring semester) (Achilleos, Zachos)
- 07. Parameterized complexity and algorithms (2015-2016, spring semester) (Giannopoulou)
- 03. Semantics of programming languages (2015-2016, spring semester) (Rondogiannis)
- 03. Network algorithms and complexity (2015-2016, spring semester) (Varvarigos)
- 05. Computation models and complexity (2015-2016, spring semester) (Zachos)

0.1 Tuesday

11:00-14:00 07. Parameterized complexity and algorithms (2015-2016, spring semester) 11, math, UoA 12:00-14:00 03. Semantics of p

0.2 Wednesday

17:00-19:00 07. Logic, automata and games (2015-2016, spring semester) 1.1.31, ece, NTUA (old buildings)

0.3 Thursday

11:00-13:00 07. Parameterized complexity and algorithms (2015-2016, spring semester) 11, math, UoA 12:00-14:00 03. Semantics of p

0.4 Friday

11:00-15:00 05. Computation models and complexity (2015-2016, spring semester) 1.1.29, ece, NTUA (old buildings) 15:00-19:00 03.
